What our
Borrowers say...

“As an investor and owner of multiple houses, I couldn't be more happy than I am, working with Scott Valins, Harry Bennett, Brian, Laura and Maria. Harry is my primary go-to advisor for all real estate finance activities.

Harry and I worked together on multiple deals, and I always get the best of the service, always timely, always enthusiastic, always professional and well thought through, and very resourceful.

I will continue working with **GoRascal** professionals in the future, because they have my trust, because they are enthusiastic and because I know that they prioritize my goals. It is a true pleasure to work with Harry and this wonderful group. If my project is in Harry's hands, I know it will be finished successfully, no matter what obstacles are around the corner.”

Alexander Birger

“We cannot recommend **GoRascal** more – we completed our first home purchase and mortgage process with Harry Bennett and his team. Not only did we secure a great rate, but the team was professional, kind, and super helpful through every step of the process.

They also provided very accurate and timely information, which was much appreciated. They are experts at what they do, and use modern technology for documentation so the process is remarkably easy and accessible, even as a first time home buyer.

We will definitely be using **GoRascal** for future refinances or purchases, and I'd recommend them to anyone looking to buy in NYC/boroughs.”
